Solar Turbines Inc.

San Diego, CA
March 2020 - January 2021

Lead UX Designer

Increased product findability and navigation by 20%. Restructured the mapping for the public and private website domains. Created interactive digital displays, walk-through experiences, and customer communication collateral to improve customer experience.

April 2018 - February 2020

UX Designer

Designed an internal website that increased communication between multiple departments. Website was used for customer sales presentations and contained technical references, release notes, and development updates.

June 2017 - December 2017

UX Design Intern

Ran a UX audit on InSight Platform app. Documented findings and areas of improvements. Documentation findings led to the creation of the Involve Design System. Design System was soon adopted by the entire Solar Digital Department.
